

Join the first AfricaPVSEC

Durban, South Africa

27-29 March 2014

AfricaPVSEC is a new initiative partnering EU PVSEC and SNEC for promotion and exchange in the photovoltaic solar energy sector and bring together leading experts, researchers, public authorities, representatives of international organizations, donors, NGOs.

This meeting will help to facilitate the exchange of ideas, initiatives and technologies that will enable move towards an efficient and sustainable exploitation of solar photovoltaics for the African context.

Conference supported by

Target

Exhibitors companies and organizations involved in the different sectors of the solar photovoltaic and renewable energy sector:

- Photovoltaic solar systems
- Thermal solar systems
- Manufacturing and distribution of energy/ Energy saving
- Research and development
- Services and organizations
- NGOs working in the sector
- Investors

Focus on

- PV solar positioning on the Africa continent
- Extension and development of solar photovoltaics in Africa
- Increased potential for exploitation and use of solar photovoltaics
- Transfer of appropriate technologies to the African context
- Promotion of investment
- Development of trade and business linkages between African professionals and their counterparts in the world
- Business relationship between professionals to establish partnership agreements, technical, financial or commercial
- Extension programs, projects and achieving goals internationally, nationally and regionally
- Exchange of ideas and information among professionals, organizations, government and promotion authorities
- Promotion of PV solar processes, systems and equipment

Conference The international conference will serve as a meeting point for the representatives of public authorities, business leaders, technicians, national, regional and international organizations, NGOs, funding and advisory structures, professional groups and renowned experts.

Exhibition open to industries, international organizations, research structures and organizations, specialized advisory services and consultancy firms, donors and professionals involved in the various sectors of solar photovoltaic energy.

Exhibitors already confirmed at AfricaPVSEC 2014 include the following leading players

ANTAISOLAR

ASTANASOLAR

AT&M
安泰科技

CEI

etaflorenc
renewableenergies

EU PVSEC

IPVEA

JOINT RESEARCH CENTRE
The European Commission's in-house science service

明徽能源
MING HWEI ENERGY
